Buckle Down Publishing	Buckle Down on Science, Level 3-4 Student Workbook & Practice Test	Buckle Down Publishing Co.	2004	3 (3-4)		R - 82%
	Key Features: Comprehensive science review with instruction, examples, experiments, investigations, practice items, and test-taking tips to help students prepare for science tests. Easy-to-use standards-based workbook with Testwise Strategies embedded throughout, useful for both student review and remediation. Practice tests that are matched to science standards and workbook reviews, and provide useful feedback on instruction and student progress in mastering science content.					
	Buckle Down on Science, Level 3-4, Teacher's Guide					
	Buckle Down on Science, Level 3-4, Additional Practice Tests					
Classroom Connect	Connected Tech	Surr, Cohen	2003	3 (K-8)		R
	Key Features: Connected Tech offers more than 450 standards based lessons across the curriculum in math, science, social studies, and language arts/communication. There are 142 K-2 resources; 151 grade 3-5 resources; and 171 grade 6-8 resources. Lessons are correlated to ISTE NETS for students with correlations available online and are easily integrated into regular classroom curricula. Connected Tech helps teachers organize students into groups based on learning style, providing differentiated instruction for students with learning challenges and offering extensions for gifted and talented students. Our resources also offer multimedia and Spanish language support that accommodate diverse learning styles. Connected Tech uses real-world applications in real time allowing students to learn the application while completing a core curriculum assignment. Connected Tech teaches skills for AppleWorks, Word, Excel, Power Point, Access, Inspiration, Kidspiration, HyperStudio, KidPix, FileMakerPro, and iMovie.					
Delta Education LLC	FOSS Human Body Module	Lowery	2005	3		R - 56%
	Note: Need to purchase Human Body, Measurement, Physics of Sound, and Water as a complete set. Key Features: The FOSS Program is a complete K-6 modular science program of instruction and assessment dedicated to the proposition that elementary students learn science best by doing science. The program is a carefully planned and coordinated science curriculum. FOSS modules begin with hands-on investigations, and then move students toward abstract ideas related to those investigations using interactive simulations found at (www.fossweb.com), models, and readings. Its modular design provides instructional versatility for many different school settings. The FOSS Program has three important goals: 1. Scientific Literacy; 2. Instructional Efficiency and 3. Prepares students with the knowledge and thinking skills to manage the 21 st century. The FOSS Program is based on the theory that students advance through a predictable sequence of stages of cognitive development over time

	DSM Force & Motion Module	Delta	2003	3		R - 52%
	Key Features: The DSM unit offers quality, hands-on activity-based science for students in grades k-6. Whether used to supplement and/or fill gaps of an existing science curriculum, or as a stand-alone program, the activities in DSM successfully engage students in inquiry-based learning. These comprehensive kits are user-friendly for all teachers, meeting the needs of both those who are at ease teaching science and those who appreciate more support. The DSM program combines hands-on active learning with a powerful combination of science and reading through the <i>Delta Science Readers</i> —non-fiction student books. The Readers provide additional science background, content and vocabulary for the students. DSM Program Components: In addition to the kit of materials needed to conduct hands-on investigations, each DSM unit includes: a Teacher Guide, Equipment Kit, and <i>Delta Science Readers</i> . Unique Features of a DSM Teacher Guide: A Module Overview, Overview Chart for Hands-On Activities, Hands-on Activities, Delta Science Reader, Teacher Resources. A Copymasters folio provides the duplication masters for recording student info from the activities and assessment.					
	DSM Solar System Module	Delta	2003	3 (3-4)		R - 54%

Publisher	Title of Material	Author	Copyright	Grade Level	ISBN Number	R=Resource *Correlation
Encyclopedia Britannica, Inc.	Encyclopedia Britannica Online School Edition	Encyclopedia Britannica, Inc.	2004	3 (K-12)		R
	Key Features: Four encyclopedias that are geared for all levels of reading with 123,000 articles and 27,000 images and video clips including coverage of Science topics. Plus, the Britannica Internet Guide offers access to the best sites available on the Web, chosen based on their educational value with an emphasis on curriculum-based content. Learning Materials and Teacher Resources that include more than 450 interactive guides to incorporate core content areas into the classroom. Science topics include Biology, Earth and Space Science, Life Sciences, and Physics. Core concept reviews, student activities, images, and Web links are included. Other features include a World Atlas with detailed maps of more than 200 countries, all U.S. states, and all Canadian provinces, a student dictionary and thesaurus, interactive historical timelines, and videos and multimedia. Journals and magazines provide up-to-date information about classroom concepts and current events.

	Key Features: Comprehensive, Balanced Content: Two units each of life, earth, and physical science offer a balance of hands-on activities and informative text, providing a comprehensive approach for thorough content coverage. Reading Support: The reading support provided by highlighted vocabulary, end-of-section check questions, and informative, colorful graphics make the books highly comprehensive. Integrated Skill Development: Links to math, writing, and other subject areas, found at the end of each lesson, provide students with experiences that reinforce their skills across the curriculum and opportunities to extend their study of each science topic.

NGSD, LLC (National Geographic)	Reading Expeditions Science Single-copy Set	National Geographic	2002-2004	3 (3-8)		R - 91%
	Key Features: These nonfiction books are correlated to national science standards. They build/reinforce core science content and develop nonfiction literacy skills. Engaging text and powerful photographs make science content relevant and meaningful. Nonfiction text features such as captions, labels, headings, subheadings, Specialized vocabulary, glossaries, indexes, and more help students learn to navigate informational text. Unique book features show real-world science in action, develop inquiry skills and provide opportunities for research and investigation.					
	Reading and Writing Workshop	National Geographic	2004	3 (3-8)		R
	Key Features: Developed in collaboration with key experts in the field of education. Dr. P. David Pearson, Dean of the Graduate School of Education at the University of California, Berkeley, and Stephanie Harvey, author of Strategies That Work. Provides teachers with the tools to teach essential research-based comprehension strategies and expository writing. Connects reading and writing using authentic texts. Science and Social Studies texts to provide students opportunities to learn to comprehend and write informational texts.					
Pearson Digital Learning	KnowledgeBox	Pearson Digital Learning	2001	3 (K-6)		R
	<p>Key Features: Engaging, instructional digital media. <i>KnowledgeBox's</i> digital media captivates and engages the minds of learners. Materials are complete with multicultural characters, child narrators, and state-of-the-art animation. The unique characters, creative narrative techniques and project-based activities have been designed to keep students motivated and excited about learning. The digital environment empowers students to engage in exploratory, hands-on activities to construct their own means for understanding new material.</p> <p><i>KnowledgeBox</i> leverages the broadband capabilities of a school or district local area network by delivering engaging, instructional digital media to any connected computer. In general, implementation of <i>KnowledgeBox</i> does not require any pre-existing conditions, except a strong commitment to improving student achievement. Though the individualized instruction component is implemented using computers, Pearson Digital Learning trainers ensure that all teachers are comfortable and confident in using this technology prior to completion of the initial training.</p> <p>Integrates technology with curricula and instruction. <i>KnowledgeBox's</i> interface, design and research-based approach to delivering content addresses multiple learning modalities, conceptual development and comprehension strategies aimed at increasing student performance. Using <i>KnowledgeBox</i>, teachers can plan based upon state or national standards, by subject, by theme, or by a specific topic. This flexibility allows teachers to use <i>KnowledgeBox</i> in multiple ways including whole group presentations, customizes individual lessons, project-based learning, and direct instruction.</p> <p>Because of the ability to share and assign lessons that have been created specifically to meet district standards or objectives, <i>KnowledgeBox</i> becomes an effective tool for teachers, administrators, and curriculum teams to monitor how technology is being used in instruction. The flexibility of <i>KnowledgeBox</i> allows teachers to maximize their efforts in delivering highly effective instruction. Materials can be used flexibly in the process of instruction: to review, reinforce, set context, expand teaching resources, and extend learning opportunities.</p> <p>Alignment to national and state standards. All of the digital media (movies, software, text, and Internet links) on <i>KnowledgeBox</i> is aligned to national and state standards in each of the core subject areas. In addition, <i>KnowledgeBox</i> provides research-based lessons in these core areas. Teachers can also create customized standards-based lessons to meet the diverse needs of the learners in their classroom.</p>

Scott Foresman / Pearson Education, Inc. publishing as Pearson Scott Foresman	Science Companion Version 1.4	Max Bell, et al	2004	3 (K-3)		R - 75%
	Key Features: <i>Science Companion</i> curriculum uses a scientifically researched, field-tested, inquiry-based approach to elementary science teaching and learning. The <i>Science Companion</i> experience is “hands-on”. The classroom is a collaborative learning environment where children work together in groups and share their ideas. The teacher is a facilitator for the explorations of the classroom. The teacher’s role is to provide opportunities for investigation, to stimulate the children to ask questions, share ideas and delve deeper into the content. The <i>Science Companion</i> experience provides motivation and practical applications for other disciplines. <i>Science Companion</i> provides ample opportunities for science to be used in support of mathematics, language arts, art, and other disciplines. In <i>Science Companion</i> these connections are developed along with the lessons, consequently an integral part of the scientific topics. In an effort to provide teachers who don’t have science backgrounds with the information they need to teach confidently and accurately, the <i>Science Companion</i> curriculum includes “Teacher Background Information” for every unit. This information covers the major concepts that the lessons introduce, giving extra information that’s not in the lessons so teachers can answer children’s questions. It also gives teachers a heads-up for what the children will probably find once they observe closely. In addition, we provide “Best Practice” ideas for how to pursue science, and a discussion area on our website where teachers can share concerns and solutions.
